

FAFSA UPDATE

FAFSA COMPLETION INCREASING

Completion of the 2022-23 FAFSA has increased 2 percent in South Dakota compared to the last academic year.

According to U.S. Department of Education data released earlier this month, 4,440 South Dakota high school seniors (42.3 percent of the class of 2022) have completed the 2022-23 FAFSA.

LEARNING DRIVES US MARKETING CAMPAIGN LAUNCHED

In a cooperative effort with the six public universities, the South Dakota Board of Regents launched a new marketing campaign highlighting the value and importance of higher education to the state of South Dakota.

“The purpose of this campaign is to show that industry leaders are grown right here in South Dakota, specifically at our public universities,” said Regent Jim Thares. “It tells the real story about South Dakota's public universities—one of economic impact and workforce empowerment that pays off today and tomorrow.” Visit the Learning Drives us Forward website at LearningDrivesUs.com.
