

2023-24 FAFSA COMPLETIONS IN SOUTH DAKOTA

# FAFSA UPDATE

OCTOBER 2022

South Dakota is starting off strong with the 2023-24 FAFSA, with more than 227 high school seniors completing it as of October 7. That completion rate is nearly a 33% increase over the same time last year.

## South Dakota compared to the National numbers

South Dakota ranks 48th right now in the nation in terms of the percentage of its high school seniors completing the FAFSA.

**South Dakota - 2.1% National - 4.3%**

The new FAFSA season has just started though, so the completion percentages could change dramatically and quickly this fall. It will be important, however, to continue encouraging South Dakota seniors to complete the FAFSA.
